

SBD 1 ENVIRONMENTAL COMMITMENT STATEMENT

GOALS

Be a steward of Cultural Resources by updating all archaeological and historical building surveys and improving relationships with tribal nations across the Garrison.

Lead the way for PFOS/PFOA remediation and support the DoD's effort to prevent future releases across the Garrison.

Improve El Paso County Air Quality through implementation of best management practices and education of Peterson, Schriever, and Cheyenne Mountain personnel.

Space Base Delta 1 IAW DAFI 32-7001 & AFD 90-8 shall:

- Strive to enhance the Space Mission by continual environmental performance improvement by meeting all Federal, State and Local Regulation and meeting all DoD and Air Force Policy.
- Partner environmental compliance, risk assessment, and planning with the Garrison's mission at all levels of management and decision-making.
- Communicate environmental commitment to all Garrison personnel, including contractors and tenant organizations.
- Reduce waste generation and prevent pollution via innovation, effective facility management, and sound acquisition and procurement practices
- Promote conservation and sustainable management of Garrison lands, natural and built infrastructure, and cultural resources. Mitigate encroachment to protect AF/SF assets across the Garrison.
